

Managing snails with robots

Robert Fitch's presentation in Minlaton (SA) on "Robotics in agriculture now, and a potential solution for robotic snail management on the YP" was featured in the *Yorke Peninsula Country Times* newspaper.

Annual Agronomy Breakfast Meeting
Monday 7th July, 7.30am to 8.30am
at Minlaton Community Club

All agronomy clients welcome to attend. RSVP to branch sales staff for cooked breakfast.

TO BE FOLLOWED BY key note speakers from 8.30am–10.30am

Robert Fitch – Robotics in agriculture now, and a potential solution for Robotic Snail management on the YP
Sam Davies – Agronomic success stories of Southern YP

All farmers and agronomists are invited to hear the presentation component of the meeting. RSVP is essential for seating, if numbers are large we may need to source a bigger venue.

To get a global expert and key influencer of the ACFR and its project funding is a great opportunity. It is imperative that all farmers, advisors and interested parties of snail management solution attend and sign in for a vote of encouragement for a snail project to get adequate funding.
